SUMMARY

AndMaverick architects enterprise intelligence for the post-experimental era. The work centers on governance, orchestration, and systems alignment across product, infrastructure, and leadership.

Agentic systems, retrieval networks, and secure multi-cloud environments designed for scale and continuity.

EXPERIENCE

Remote, U.S.
Nov 2024 – Present

Principal AI Consultant
AndMaverick

- Enterprise AI transformation across Microsoft, UnitedHealth Group, and JPMorgan.
- Architected secure intelligence operating models for regulated and global environments, integrating generative systems, retrieval infrastructure, and governance frameworks at an institutional scale.
- Advised executive and board leadership on AI risk, security posture, and capital deployment, enabling nine-figure investment and measurable reductions in operational exposure.

Global (Remote + Onsite across APAC, EMEA, LATAM, North America)
Aug 2021 - Oct 2024

Head of AI, Product Experience
Spotify

- Directed AI product strategy across DJ, Blend, and AI Playlists, integrating intelligence into core user experiences at a global scale.
- Designed distributed engagement systems supporting personalization for hundreds of millions of users across international markets.
- Operationalized AI deployment frameworks spanning governance, localization, and infrastructure reliability across regulated regions.

Global (Remote + Onsite across APAC, EMEA, LATAM, North America)
Jan 2022 – May 2024

AI Strategy Consultant
Coinbase

- Designed enterprise intelligence systems for onboarding and institutional operations serving over 100 million users.
- Integrated governance aligned automation into financial infrastructure, strengthening compliance and reducing risk at a global scale.

New York City, New York
Sep 2016 – Aug 2021

Product Architect
OpenAI

- Architected the bridge between frontier research and production systems during the emergence of GPT.
- Led product strategy across GPT and API launches that catalyzed large-scale enterprise adoption and defined the early generative AI platform era.
- Contributed to the foundation of a developer ecosystem that scaled to millions globally.
